

ZONING ORDINANCE UPDATE

Get Involved!

Calaveras County invites you to participate in the process to comprehensively update the County's Zoning Ordinance.

Initial drafts of updated Zoning Ordinance regulations will be available beginning late summer 2023, and we invite you to review the draft regulations, attend outreach events, and provide input.

Review draft regulations! The updated Zoning Ordinance will be drafted in groups of related topics. Each group of updated regulations will be available for public review through the website.

Participate in study sessions! The Planning Commission will hold study sessions to review initial drafts of updated regulations beginning late summer 2023.

Attend 'office hours' with County staff! County staff will also schedule 'office hours' to answer questions and receive input.

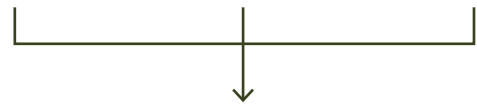

The dates and times of specific events will be posted to the project website, planning.calaverasgov.us/Zoning/Zoning-Code-Updates, as they are available.

The draft regulations will then be revised and incorporated into a complete draft Zoning Ordinance which will be available for public review through the website and hearings before the Planning Commission and Board of Supervisors.

Draft regulations reviewed during Study Sessions will inform the Draft Zoning Ordinance

Planning Commission Study Sessions

PC and BoS Hearings
